

<Advanced notice>

Selection of Graduate School of Science and Engineering in the department of Quantum Life Science,
Division of Advanced Science and Engineering (Science fields) for Master's/Doctoral Programs

August 31, 2022

We will enforce general selections for Master's/ Doctoral Program for the department of Quantum Life Science during the Year 2023 as follows:

【Conducted plan for the Year 2023】 General Selection for Master's Program in the department of Quantum Life Science, Chiba University Graduate School of Science and Engineering

○Master's Program general selection

Selection name	Chiba University Graduate School of Science and Engineering (Master's Program) General Selection (Department of Quantum Life Science April 2024 Admission and October 2024 Admission)
Selection method	Applicants will be selected based on a combination of their academic transcript, research proposal, and examination (oral interview)
Examination subject	【Specialized Subject】 There will not be written examination. Applicants are required a presentation about their graduation thesis and their research proposal, and besides are given an oral interview on them. They will also have an oral interview about the fundamental knowledge about quantum life science.
Submission period	The schedule will be announced in the website of Chiba University Graduate School of Science and Engineering in around January 2023
Examination date	The examination date will be announced in around January 2023 on the website of Graduate School of Science and Engineering

See the website page of Graduate Admissions for Graduate School of Science and Engineering for more detailed information about other selections. There is no selection of the department of Quantum Life Science in the privately financed international students selection. Privately financed international students who wish to apply for this department must apply for the general selection mentioned above.

【Conducted plan for the Year 2023】 General Selection for Doctoral Program in the department of Quantum Life Science, Chiba University Graduate School of Science and Engineering

○Doctoral Program general selections (common)

Selection method	Applicants will be selected based on a combination of their academic transcript, and examination
Examination	Oral interview : The applicants are required the PowerPoint presentation and others, about the master's thesis and the research proposal, and besides are given an oral interview on them. Be sure to discuss in detail with the prospective supervisor.

○2nd Selection of October 2023 Admission / 1st Selection of April 2024 Admission

Selection name	Chiba University Graduate School of Science and Engineering (Doctoral Program) General Selection (Department of Quantum Life Science 2nd Selection of October 2023 Admission / 1st Selection of April 2024 Admission)
Submission period	The submission period will be announced in around January 2023 on the website of Graduate School of Science and Engineering
Examination date	The examination date will be announced in around January 2023 on the website of Graduate School of Science and Engineering
Number of students to be admitted	2nd Selection of October 2023 Admission A few / 1st Selection of April 2024 Admission 3

○2nd Selection of April 2024 Admission / 1st Selection of October 2024 Admission

Selection name	Chiba University Graduate School of Science and Engineering (Doctoral Program) General Selection (Department of Quantum Life Science 2nd April 2024 Admission and 1st October 2024 Admission)
Submission period	The submission period will be announced in around January 2023 on the website of Graduate School of Science and Engineering
Examination date	The examination date will be announced in around January 2023 on the website of Graduate School of Science and Engineering
Number of students to be admitted	2nd Selection of April 2024 Admission A few / 1st Selection of October 2024 Admission A few

○3rd Selection of April 2024 Admission

Selection name	Chiba University Graduate School of Science and Engineering (Doctoral Program) General Selection (Department of Quantum Life Science 3rd April 2024 Admission)
Submission period	The submission period will be announced in around January 2023 on the website of Graduate School of Science and Engineering
Examination date	The examination date will be announced in around January 2023 on the website of Graduate School of Science and Engineering
Number of students to be admitted	3rd Selection of April 2024 Admission A few

See the website page of Graduate Admissions for Graduate School of Science and Engineering for more detailed information about other selections.
